

The sun is shining
White skin is turning brown
Relief in clothes
Relief in mind
We let the day go
The light warms the soul

And the boat rocks quietly
While the ice melts away
Everything that was heavy yesterday
Becomes so light in warm winds

Summer and sun, barbecues and free time
Take me with you, take me with you
Summer and sun, barbecues and free time
We will never sleep the night away
Come on, come on
Summer and sun, barbecues and free time

Cold beer on the menu
Suncream on your body
Music from a terrace
And someone sings
We enjoy summer
As if winter never existed

And you laugh so loud
That all the birds fall silent
No plans tonight
The dance lasts all night

Summer and sun, barbecues and free time
Take me with you, take me with you
Summer and sun, barbecues and free time
We will never sleep the night away
Come on, come on
Summer and sun, barbecues and free time

Let the waves take us
Let time slip away
Tomorrow can wait
Tonight is our way

Summer and sun, barbecues and free time
Take me with you, take me with you
Summer and sun, barbecues and free time
We will never sleep the night away
Come on, come on
Summer and sun, barbecues and free time
